Senior Frontend and Full Stack Engineer

🌐 tyschumacher.me 🐙 [GitHub](#) 🔗 [LinkedIn](#)

I build accessible React and TypeScript interfaces and services in Go, Java, and Node.js. My experience spans live sportsbook products, electronic trading, and financial applications, with a focus on usability, performance, and reliable releases.

📁 EXPERIENCE

Caesars Sportsbook

Senior Full Stack Developer

Dec 2021 to Present

Jersey City, NJ · Remote

- Built Go and Java integrations that normalized provider data and kept live betting interfaces current.
- Built accessible React tools for live odds, trader workflows, and analytics, with virtualized lists for changing data.
- Used FullStory sessions and trader feedback to identify usability issues and prioritize fixes.
- Mentored engineers, reviewed technical designs, and guided delivery decisions.

Instinet

Senior Full Stack Developer

Dec 2017 to Dec 2021

New York, NY

- Built Node.js and Java services for electronic trading, balancing throughput, reliability, and compliance.
- Modernized legacy Flash workbenches into modular React tools for traders and engineering teams.
- Improved GitLab CI and Kubernetes workflows so releases were easier to inspect and recover.

Lab49

Front End Developer

Jun 2017 to Dec 2017

New York, NY

- Built accessible React research portals with Java teams, meeting banking compliance and performance requirements.
- Translated product and legal requirements into practical interfaces and service integrations.

Twisted Rope

Full Stack Web Developer

Oct 2015 to Jun 2017

Buffalo, NY

- Built responsive React and Node.js applications for hospitality and retail, with reusable UI patterns.
- Added analytics and SEO foundations to help clients evaluate campaigns and plan future work.

🔧 SKILLS

💻 Frontend	TypeScript, React, Next.js, Tailwind CSS, Zustand, TanStack Query
🗄️ Backend & APIs	Go, Java, Node.js, Spring Boot, GraphQL, gRPC
🗄️ Data stores	PostgreSQL, Redis
🗉 Messaging	Apache Kafka, NATS, WebSockets, Server Sent Events
🏠 Infrastructure	Kubernetes, Docker, Podman
📡 Observability	Grafana, OpenTelemetry

🎓 EDUCATION

SUNY New Paltz

Bachelor's degree in Computer Science

Aug 2011 to May 2015
